

MARCH '18 REFLEX MARCH MADNESS!

Sweep the competition with your students' fluent facts!

Keep up the great Reflex progress by participating in the Reflex March Madness competition! We will have four brackets, one for each school. The first round will last two weeks to give all schools an opportunity to participate. Each following round will be one week. Reflex is most effective when students reach the green light regularly and it also helps them open new games! I will award 50 bonus points for every percentage point over 30% for that class in every round. After the first round, based on the total facts answered, the top classes in each school will be announced. Those seven classes will then represent their schools and compete to make the final four by answering as many facts as possible during the next round. The final four will have the last week to allow students to demonstrate their math fact fluency prowess and be declared Reflex Math Masters! The winning class will be rewarded!

Dates: February 26th through March 23rd

**Reflex March
Madness**

**Top 2 classes in
each building
advance to the
Savvy Seven**
